AN INTRODUCTION

The contents of this volume deal with the most actively pursued area of numismatic literature by collectors today. The companies contained in this volume represent the foundation of mainstream 20th century American numismatics. Previously most collectors of numismatic literature devoted their energies to collecting the auction catalogues emitted by these firms. However, for many years collectors tended to ignore the various mailings and monthly lists which the dealers each sent out. Yet, it was precisely these mailings which in practice brought coin collecting to the **people.**

In those less-sophisticated times, which were really not so long ago, many collectors lived in areas which did not have a frontline local coin dealer and were isolated from general numismatic activity. Also, collectors were handicapped as coin shows and conventions were fewer and less accessible than today. For many, the window to the numismatic world was monthly arrival of ***The Numismatist*** and ***The Numismatic Scrapbook.*** Not only were the articles devoured by the collector who was starved for numismatic information, but so were the ads. Many collectors found that responding to the advertisements and receiving the dealer mailings were the only practical way to pursue their hobby.

As many collectors responded to various ads some of the national mail-order dealers began to produce quality sales publications which were far superior to routine stock lists. These important house organs were an especially important medium for the many collectors who wanted to receive their coins immediately. Many collectors did not want to have to go through the lengthy wait and the uncertainty of buying coins from mail-bid sales. For the collector who sought to build collections of what was then common material, these lists were the prime sources for much of that material.

Additionally, because of the dearth of reference material generally available to the collector, many of the descriptions, articles, and monographs in the better lists soon became essential resource material. As time passed, some of these mailings and the information they contained became an important part of the body of American numismatic reference works. Two which readily come to mind are Mehl's 1929 fixed price list of French's large cent collection and Numismatic Gallery's 1944 Pearl Collection of large cents.

Today, many of these commercial mailings individually and collectively are eagerly sought by collectors of what formerly were modestly priced, common coins: such as large cents by variety, bust halves, seated liberty coinage, hard times tokens, Connecticut coppers, and tokens, just to name a few. Also, the collectors of numismatic literature have become attracted by appeal, the importance, and the challenge collecting these mailings presents.

Despite the popularity of collecting these mailings today, and despite many of these issues seeming on the surface to be quite common, many have become surprisingly elusive. For some of the series listed here, obtaining individual issues and complete sets have become most challenging for even the most advanced collector. Although in most cases, the difficulty in obtaining these mailings is not due to price, but rather to their scarcity. Many of these lists are most elusive today despite their having original mailings of many thousands of copies because at the time they just were not deemed worth of keeping.

AN INTRODUCTION

The contents of this volume deal with the most actively pursued area of numismatic literature by collectors today. Previously most collectors of numismatic literature devoted their energies to collecting the auction catalogues emitted by these firms. However, for many years collectors tended to ignore the various mailings and monthly lists which the dealers each sent out. Yet, it was precisely these mailings which in practice brought coin collecting to the **people.**

In those less-sophisticated times, which were really not so long ago, many collectors lived in areas which did not have a frontline local coin dealer and were isolated from general numismatic activity. Also, collectors were handicapped as coin shows and conventions were fewer and less accessible than today. For many, the window to the numismatic world was monthly arrival of ***The Numismatist*** and ***The Numismatic Scrapbook.*** Not only were the articles devoured by the collector who was starved for numismatic information, but so were the ads. Many collectors found that responding to the advertisements and receiving the dealer mailings were the only practical way to pursue their hobby.

As many collectors responded to various ads some of the national mail-order dealers began to produce quality sales publications which were far superior to routine stock lists. These important house organs were an especially important medium for the many collectors who wanted to receive their coins immediately. Many collectors did not want to have to go through the lengthy wait and the uncertainty of buying coins from mail-bid sales. For the collector who sought to build collections of what was then common material, these lists were the prime sources for much of that material.

Additionally, because of the dearth of reference material generally available to the collector, many of the descriptions, articles, and monographs in the better lists soon became essential resource material. As time passed, some of these mailings and the information they contained became an important part of the body of American numismatic reference works. Two which readily come to mind are Mehl's 1929 fixed price list of French's large cent collection and Numismatic Gallery's 1944 Pearl Collection of large cents.

Today, many of these commercial mailings individually and collectively are eagerly sought by collectors of what formerly were modestly priced, common coins: such as large cents by variety, bust halves, seated liberty coinage, hard times tokens, Connecticut coppers, and tokens, just to name a few. Also, the collectors of numismatic literature have become attracted by appeal, the importance, and the challenge collecting these mailings presents.

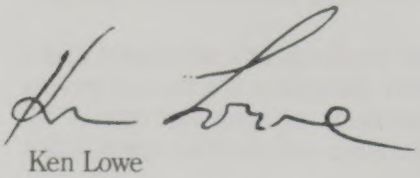

Despite the popularity of collecting these mailings today, and despite many of these issues seeming on the surface to be quite common, many have become surprisingly elusive. For some of the series listed here, obtaining individual issues and complete sets have become most challenging for even the most advanced collector. Although in most cases, the difficulty in obtaining these mailings is not due to price, but rather to their scarcity. Many of these lists are most elusive today despite their having original mailings of many thousands of copies because at the time they just were not deemed worth of keeping.

For example, single copies of Mehl's *Star Coin Encyclopedias* are generally considered to be quite common.. They tend to retail for about $5.00 in used condition. In fact, many tens of thousands of each editiion were produced and mailed. Yet, we have never seen offered for sale **anywhere** a complete set of them. Have you **ever** seen even **one** copy in mint condition? We are not even speaking of seeing a complete set in new condition. Yet, these are so-called "common" items.

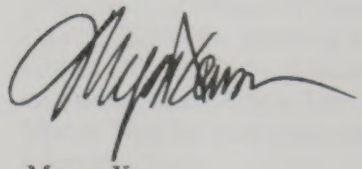

For another example, Dave Bowers has been producing auction catalogues since 1957. He has also been issuing non-auction catalogue mailings for over 30 years. There probably is no dealer whose material is in more demand today. Yet many advanced collectors have never even seen some Bowers' offerings, much less owning copies "of the rarer items". Also, previously unknown mailings always seen to be turning up. Bowers has always advertised widely. He always sent out many copies of his various mailings. But, how many collectors have complete sets of "Special Coin Letters"? In fact, how many collectors know when Bowers issued the first "Special Coin Letter"?

This undertaking of Remy's fills a great void for the collector and researcher of numismatic literature. His effort is the first systematic cataloguing to be published in this area. To accomplish this, Remy has put in countless hours on this project. This labor of love was produced in the hope that it would serve as a guide and an inspiration for the collector who is pursuing this exciting area of numismatic literature. However, while Remy's book is quite comprehensive, there are still many forgotten "treasures" out there waiting to be rediscovered. We hope that as collectors become increasingly active in this area they will contact Remy with any corrections and the many additions that will inevitably be found.

We thank Remy for giving us the opportunity to participate in his project. His selflessness has significantly enriched both overall body of numismatic literature and, more importantly, raised the level of our hobby. Finally, we would remiss if we did not acknowledge Armand Champa whose generous assistance has been most valuable in the project.

INTRODUCTION

How many times have you wondered if you have the first number of a publication like "Kelly's Coin and Chatter" or the last number of "Kosoff's Numismatic Gallery". Maybe you are perplexed as to how long Volume 7 continued in Dave Bullowa's Fixed Price Lists.

For years I have corresponded with collectors like you trying to find these answers so that I might know when something in my library is complete or not.

This book may not answer all your questions, but it should start you on a clearer path in your life-long collecting journey of knowing what to look for.

In discussing the idea of assembling a list of periodicals/house publications of a dozen or more desirable dealers with Ken Lowe and Myron Xenos, they asked me to expand this book to include some of the more popular dealer fixed price lists. This book will give you a list of 21 companies with about 275 total pages of lists along with illustrations to aid you in identifying what you are endeavoring to collect.

In some cases I have filled in dates or months on issues I did not have because I was fairly certain of the progression of the issues. Later in the book, I decided to leave "blanks" in the list as they occurred in my own library and in the libraries of several other prominent collectors so you could have the "fun of the hunt" in filling in the blanks. As an aside, many of these "blanks" exist in the later dates because I let some of my subscriptions lapse and then later renewed them.

On the other hand, some still remain to be found, if they in fact actually do exist. For example, Stack's Fixed Price List number (13) and (13-A), "Numismatic Guide", was issued around 1942 in 2 different content versions. At this time they are the only known fixed price lists of that period that fit into Stack's numbered sequence. Therefore, I have taken the liberty of assigning numbers (13) and (13-A) to them.

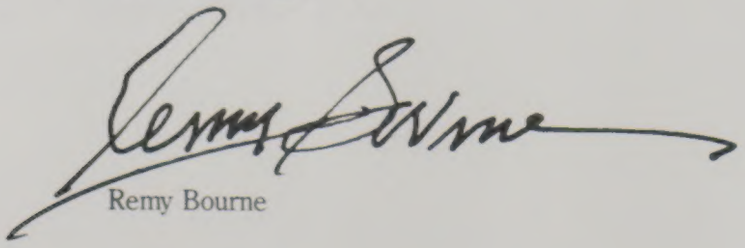

Two additional unfound Stack's Fixed Price Lists which are missing from major collections I have surveyed are lists number 39 and 52. If you have any additional numbered fixed price lists from Stack's that dispute what I am putting forth, I would appreciate hearing from you so that I may correct myself.

This book has purposely been offered to you in a skeleton outline of each of the Dealer's material so that you can fill in your own notes and comments as they fit your needs.

I have tried to list the significant series that have been and are presently becoming collectable, but not necessarily every single individual piece that was produced. Some of the dealers have large art departments which send out many promotional mailings a year which in my mind are non-collectable in the larger sense.

I would like to end by acknowledging several people: John Bergman for sharing lists many years ago. Cal Wilson for publishing some of my lists in his "Repository". Frank and Laurese Katen for providing the "Katen Lists" as well as "Kelly's Coin and Chatter". Armand Champa for collaborating information on several lists. Scott Rubin for information on Special Coin Letters. Ken Lowe, the word smith, and Myron Xenos both of The Money Tree for their enthusiam and support in distributing this book and making it happen.

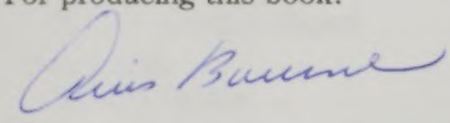

Good Collecting,

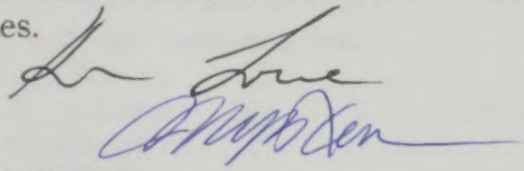

Remy Bourne

ISSUE NO. 1 NOV.-DEC., 1960

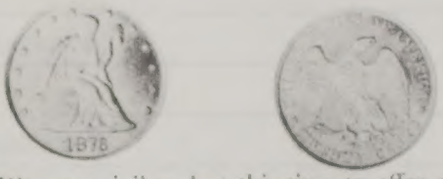

Welcome to Bowers Coin Company's new publication, The Bowers Review. Future issues of The Review will be issued as often as time permits . . . from five to eight times a year. This issue includes a number of interesting features—a questions from readers' column, a quiz, notes and comments as well as an extensive presentation of rare coins for sale.

Bowers Coin Company is located in Binghamton, a medium-sized city about two hundred miles northwest of New York City. We are located at 70 Court Street, in the heart of the downtown area in Binghamton's most modern office building. Our offices occupy a large percentage of the sixth floor. Our new quarters were designed to our specifications and include a library, conference rooms, a mailing room, a reception room and a sales office. Our new printing department, complete with an offset press, enables us to print most of our mailing literature. We invite you to stop by for a visit, should you ever be in our area on either business or pleasure.

One of our main interests has always been numismatic research. Your editor has, in the past, contributed to many articles and books on subjects ranging from Colonial coins to patterns. At the present we are completing a manuscript for a new reference concerning the 1787-8 copper coinage of Massachusetts. Following the trend of thought that numismatics is interesting in addition to being a good investment, we will feature research articles from time to time. Articles on Proof coins and Confederate coinage are slated to appear in the near future.

This issue contains a wide selection of priced items from our stock. Items are included in all conditions and price ranges. As public interest centers on rarities we are pleased to offer for your consideration such items as the rare 1796 half cent, the extremely rare 1863-L transitional pattern cent, the 1867 with rays Proof nickel, the classic 1876-CC twenty cent piece, the elusive silver dollar of 1858 and one of the seven or eight known specimens of the 1824 half eagle. Whether your numismatic budget is a few dollars or several thousand dollars we are sure you will find a number of items to be of interest. We have included coins in all denominations, conditions and price ranges. An order blank and postpaid envelope are included for your ordering convenience. We will look forward to receiving your correspondence.

1876-CC Twenty-Cent Piece

We are privileged at this time to offer one of the most outstanding rarities of American numismatics, the 1876 twenty-cent piece of the Carson City mint. This coin is in *perfect Brilliant Uncirculated condition.*

This coin is unpriced in the **Guidebook** with the notation "14 known." **The Standard Catalogue of United States Coins** notes that only nine or ten pieces are known. Compare these figures to the fourteen known specimens of the 1804 dollar. This represents a most important opportunity to add the 1876-CC twenty-cent piece to your collection. Here is a coin which takes a place with such famous and nearly unobtainable rarities as the 1913 nickel and the 1804 dollar.

It is extremely difficult to price a rarity of this calibre. Past auction prices are irrelevant (for example, the last original 1804 dollar sold at auction realized $10,000. It is perhaps worth double, triple or more than that amount today). We mention as being of possible interest the figures of $12,000 and $15,000 as the value of the 1876-CC twenty-cent piece. One figure is the estimate we have seen in an auction catalog; the other, the estimate of the owner of another specimen of this coin. The most important aspect of the offering of this coin is not the price asked, but the opportunity to acquire an item of this nature.

The addition of this coin to your cabinet will place your collection in a class with the foremost American private and museum exhibits. We offer the 1876-CC twenty-cent piece in perfect Brilliant Uncirculated condition for nine thousand eight hundred and fifty dollars.

ISSUE NO. 14 AUG.-SEPT., 1961

Welcome to the Empire Review, the publication of Empire Coin Company, Inc. The *Empire Review* is the successor to *Empire Topics* (eleven issues published 1958-1960) and to *The Bowers Review* (two issues published 1960-1961). To maintain a continuous numbering system for those who have collected the previous thirteen issues of *Empire Topics* and *The Bowers Review* we are starting the numbering system of our new publication with #14.

Q. DAVID BOWERS
Editor, The Empire Review
Secretary-Treasurer, Empire Coin Co., Inc.

The Empire Review will be issued at intervals during the year. We plan to issue from three to five issues a year, as time permits. The subscription fee of $1.00 for six issues is on an issue basis, not a calendar basis. This dollar charge helps to defray the costs of making an Addressograph plate and preparing, printing and mailing the six issues to you. Needless to say, our cost of sending six issues to you is considerably higher than the $1.00 subscription charge. If you become an active Empire Coin Company customer your subscription will be renewed free of charge.

JAMES F. RUDDY
President, Empire Coin Co., Inc.

Our modern offices are located in one of the largest buildings in downtown Binghamton, New York. Our expanded facilities will allow us to operate a larger and more complete rare coin business. Our library, one of the finest American numismatic libraries in existence, will permit increased research in various series.

This issue of the *Empire Review* contains an article, The Seizure and Operation of the New Orleans Mint by the Confederacy, by Walter Thompson. Mr. Thompson has done considerable research in the National Archives and has published his findings in numismatic magazines, particularly the *Numismatic Scrapbook Magazine*. Mr. Thompson's present article is particularly appropriate to the Civil War centennial.

COINS OF GREAT BRITAIN

Offered for sale by Empire Coin Co. Inc.

COINS OF GREAT BRITAIN, copyright 1962 by Empire Coin Company, Inc., Empire Building, Johnson City, New York.

We are pleased to present an outstanding selection of priced coins of Great Britain, a group especially rich in the popular and beautiful issues of Queen Victoria's reign. The emphasis is on quality. The majority of the pieces are Uncirculated or Proof.

For the collector of United States or Canadian coins the field of English coins represents an attractive opportunity for collection and investment combined. Until recent years collectors in England had little interest in English coins by date and mintmark ... the usual American way of collecting. As a result most of the earlier issues are scarce in mint condition.

The introduction of popular books and albums for the English copper series (farthings, halfpence and pence) has increased the demand for these coins a hundredfold. During recent trips to Europe we found that dealers' stocks of choice Victorian copper were almost non-existent. The same thing is about to happen to the silver and gold coins of England.

An idea of the investment potential of English coins may be gained by comparing them with similar issues of Canada or the United States of the same era. For beauty and excellence of design English coins have few equals elsewhere in the world. The attractive monarchial portraits are interesting to collect by types, as well as by date sequence.

Now is the time to start your collection of English coins. Order from Empire with confidence. Your satisfaction is guaranteed.

Empire Investors Report

Issue # 1 Empire Investment Newsletter, copyright 1963 by Empire Coin Co.,Inc. Empire Building; Johnson City, New York. Subscription:$26.00 per year by first class mail; $28.00 by air mail. Published every other week.

No doubt about it...coins have become a major investment medium during the past few years. Until recently most of the profits from investing in coins have gone only to coin collectors. Recent publicity in articles and advertisements concerning the investment angle of coins have opened up the field to thousands of new investors.

In Los Angeles one prominent investment advisor recommends that his clients consider rare coins in addition to real estate, securities, etc. In Switzerland, Zurich's Bank Leu maintains a rare coin department...as do several other banks in that city. Reliable reports inform us that a number of U.S. insurance companies have made a beginning in coin investment.

* * * *

What is behind the investment interest in coins?

The appreciation in price of collectors' items, art and Americana is no secret to anyone who reads magazines or newspapers. A painting selling for $75,000.00, $200,000.00 or even $500,000.00 is commonplace and today would attract no more than passing notice. In another field, stamps have brought high prices for years. The knowledge that a certain stamp of British Guiana was worth about $50,000.00 was commonplace information five or ten years ago. Coins have a long way to go to catch up with these figures. The potential is largely untapped.

Until recent years the field of coins was neglected. The hobby and investment potential was known to only 30,000 to 50,000 people, and even this may be an overly large estimate.

In the past few years, things have changed. New publications have appeared on the market. In only two years, the new publication, Coin World, started from zero and rose to a circulation of over 100,000 subscribers. Nationally known firms such as Whitman Publishing Company have introduced lines of quality albums and reference books on the market. Their book, A Guide Book of United States Coins, (available at your hobby or book store or from us for $1.75 plus 25¢ postage) has become the standard reference.

The United States public has become coin conscious. There are far more collectors than coins enough to go around! The well-known economic laws of supply and demand have increased the prices in coins...and with the swelling interest in coins there is every indication that they will continue to rise in price. This makes today, and has made in recent years, the field of coin investment a prime area to consider.

Articles on coins which have appeared in Life, Look and the Wall Street Journal have created much interest.

As an example of price appreciation, let us take the 1909-S V.D.B. Lincoln cent which, in simple terms, is a Lincoln cent struck at the San Francisco mint in 1909 and bearing the initials, V.D.B., of the designer, Victor D. Brenner. We sold specimens in 1956 for $20.00 to $30.00 in uncirculated (mint or new) condition. Today dealers sell them for $300.00 each ...ten times more than the 1956 price!

Mint rolls of 1950 nickels made at the Denver mint sold for $15.00 to $30.00 five or six years ago. As we go to press, dealers are offering $525.00 and more per roll to obtain them... and there is every indication that this price will seem very low in the market of the next few years.

In 1957 an 1894 San Francisco mint dime sold for $4,750.00 at auction. Four years later, a similar piece sold for $13,000.00...nearly three times the previous price!

Indian cents are among the most beautiful American coins ever issued. You'll find a wonderful assortment of Indian cents in the ultimate condition, Proof, offered for sale in this catalogue! .

Over the years we have had quite a few rarities, but never before have we offered a pair of 1836 name-below-base Gobrecht dollars together in one catalogue!

Welcome to our new catalogue! It is full of choice, rare and interesting coins of all types — and we are sure you'll find many pieces to be of interest. All are priced to be excellent values. And, equally important, we believe you'll like our conservative grading.

Among the early American issues listed you'll find a large selection of colonial coins, including many Massachusetts silver pieces formerly in the renowned collection of Mr. T. James Clarke of Jamestown, N.Y. The half cents are highlighted by a remarkable selection of the rare Proofs including one of six 1811 restrikes issued, specimens of 1831 and 1836, and a series of the seldom-seen issues of the 1840's — all of which add up to the most extensive group of half cent Proofs we've offered in the past fifteen years.

If you're forming a type set of United States coins you'll be especially interested in the large group of 1793 wreath cents presented in this catalogue. The specialist will find the 1799 perfect date cent to be of importance. The small cents, two cent pieces, nickel and silver three cent pieces and half dimes in this catalogue are, as usual, quite varied and range from inexpensive "type" issues to the more costly key dates.

A nice collection of early Proof coins recently purchased has been broken up and distributed throughout the catalogue. You'll find Proof singles of Liberty seated and Barber type dimes, quarters and halves as well as several intact Proof sets of 1864, 1866, 1877 and other years.

A superb collection of U.S. Assay Commission medals is an outstanding feature of this catalogue. Not since the 1952 A.N.A. convention auction has a large group been offered for sale; and that group, remarkable as it was, was not so large or complete as the collection we offer! Even if you are not a potential buyer for the c.$20,000.00 collection you'll enjoy reading the descriptions for few other numismatic catalogues in recent years have boasted even a single one of these Assay medals. As a brief, brief description of a very interesting ritual we mention here that once a year the Assay Commission

Vol.III; Catalogue No. 7 September, 1970

THE FIRST COMMEMORATIVE HALF DOLLAR – In 1824 General Lafayette, hero of the American Revolution, revisited the United States. To commemorate the occasion noted engraver C.C. Wright prepared dies for a medalet. The obverse portrays the head of President Washington; the reverse, that of Gen. Lafayette. We offer for sale a counterstamp of these dies on a perfect Uncirculated U.S. half dollar of 1824. To our knowledge, this is only the second such half dollar to be offered for sale within the past fifteen years. The price is $1795.00. *(Enlarged illustration above)*

Welcome to our latest catalogue! This issue contains a particularly wide variety of truly *interesting* coins, in our opinion. The unusual Lafayette commemorative pictured at the left, an extensive listing of Connecticut and Vermont colonial coins and an impressive array of Charlotte and Dahlonega gold issues all await your consideration and possible purchase.

Cataloguing rare coins is always enjoyable. As a dealer we have handled more coins than any collector could be expected to. While we've had our share of 1894-S dimes, 1841 quarter eagles, and other legendary rarities, it is always a particular pleasure to describe coins "with a story." These need not be expensive to be interesting. In fact, some of the most interesting American coins are the least expensive. We are particularly enthusiastic about some of the colonial and state coins in this issue. If you're already a devotee of these early issues, then the listing is self explanatory. If not, we hope you'll take a few moments to read our comments about Connecticut and Vermont copper coins. Even if you don't buy a single one of these coins, we think you'll enjoy reading about them!

In our last catalogue we had as a special offer a late-date Liberty walking half dollar, date of our choice, in BU condition for $3.50 postpaid with any order for $10 or more. Before that issue went to press we laid in what we thought was an ample supply of these pieces. No sooner had the catalogue come out than we realized that nearly everybody wanted one! We found that there were none to be had, even in roll quantities, on the market for under or at the $3.50 we were selling them for. But, we didn't want to disappoint anyone, unless there was no alternative. There was an alternative, it developed: we purchased several hundred more pieces wholesale at prices *higher than we were selling them for!* So, as a result, everyone who ordered this "Special" ended up getting

BU MORGAN DOLLAR FOR $1.95!

Here's our Special Offer this issue: With any order in the amount of $10 or more you may purchase for just $1.95 a choice Brilliant Uncirculated Morgan silver dollar, our choice of date (probably 1879-S or 1880-S), for just $1.95! Of course, this is way below wholesale so, for this reason, we limit our offer to just one per customer. Request "Special Morgan Dollar Offer" and add $1.95 to your order.

PRICE LIST No. 5 May, 1968

Price List No. 5; May, 1968. Copyright by Hathaway and Bowers, Inc.; 11975 E. Florence Ave.; Santa Fe Springs, Calif. 90670. Telephone: (213) 941-8774. Office hours: Monday-Friday 9 to noon; 1 to 5 pm. Saturdays 1 to 4 pm. An appointment is recommended ...especially, for Saturday visitors. Arrangements may also be made to see you on a Sunday or an evening by appointment. Price of this catalogue: $1, refundable with an order for $10 or more.

This cylinder music box with six bells and a snare drum is just one of the many fascinating music boxes offered for sale in this issue.

Price List No. 4 now is history. Thanks go to our many customers who ordered from it. The beautiful Link AX orchestrion in the deluxe walnut case went to the MacDonald Collection in St. Louis, Missouri...the three single-violin Mills Violano-Virtuosos went to three different eastern states: Connecticut, New York and Ohio. New York must be a popular state for Violanos...we've sold a number of them to there...including a beautiful Double Mills we offered in the summer of 1967.

One of the Seeburg L cabinet coin pianos went to a Missouri antique dealer who visited us, saw it, liked what he saw and took it with him. The Seeburg K piano with flute pipes stayed closer to home: it went to a Pasadena dealer. Several orders came in for the American Fotoplayer. It went to a Pennsylvania collector.

Most of the music boxes were scattered far and wide also. The beautiful 15 1/2" Regina table model was one of the most popular. We could have sold a dozen if we had them! As it was, the one we had went to a Chicago securities specialist who had us airfreight it to him for use as a gift. Four of the melodic 15 1/2" "parlor model" Regina disc changers have left our premises in recent months...going to such diverse places as Illinois, North Carolina and to two towns in California: Azusa and San Gabriel.

The fierce-looking beast shown at the right is actually "guarding" the keyboard of a fine Cremona orchestrion offered in this catalogue. Above are shown part of the pipes and percussion effects from the same instrument.

We've received many nice comments about our catalogues from our readers. One of our favorites is from Mr. John E. Bishop of East Rockaway, New York who wrote: "Your catalogue was source material for my high school senior paper which was about band organs, calliopes and nickelodeons. After a few weeks of work I turned the paper in. It included information paraphrased from your list. I received a 94 grade on this paper...the second highest mark in the class..."

The Hathaway and Bowers, Inc. staff has been busy in recent months. Part of December and January was spent logging some 15,000 to 20,000 miles of travel around the United States and Europe in search for automatic musical instruments. Instruments from this grand tour will be arriving on our premises over the next month or so...and will be a highlight of our next catalogue. Ones which are here already are listed on the pages to follow. We have acquired over $200,000.00 worth of choice instruments...a figure unequalled, to our knowledge, in the history of the hobby.

The Jim Hamilton Collection was among the groups of instruments purchased. This array of instruments may be familiar to some of our readers who own the "Quarterlodeons" hi-fi record put out several years ago. The various Hamilton machines are featured on

PAIR OF BU MERCURY DIMES FOR JUST $1.00!
—Catalogue value at least $2.50!—

Here's our SPECIAL OFFER this issue: With any order in the amount of $10 or more you may purchase for just $1 a pair of choice BU Mercury dimes, two different dates of our choice, which catalogue at least $2.50 the pair! As this is below wholesale we make the following limitations: (1) Just one pair per customer. (2) Offer limited to the number of pairs we have on hand, about 1,000 — so order early! Request "Mercury Dime Special Offer" and add $1 to your order!

Welcome to the latest issue of our catalogue, now renamed the *Rare Coin Review*. The present listing is the largest we've issued. We have done our best to provide you with a truly varied selection — from the $1 Special Offer on this page to such rarities as 1793 cents and half cents, several Gobrecht silver dollars, an 1895 Morgan dollar, and other gems.

Before we go on to the coins that await you, we say Thank You for the response to our small but value-packed Special Coin Letter of January. As we said in a recent listing, "each of our offerings seems to do better than the one before it." We are deeply appreciative of the confidence you've placed in us —

Many choice coins — this lovely Proof 1879 trade dollar is an example — await you in this catalogue!

and assure you that we'll do our part to provide you with the best values in the coin market today.

The market for scarce and rare coins continues its strength. Worth noting are these facts: (1) Last year, considered a recession year by most economists, was a healthy year for the rare coin market. In fact, an alltime high price record was set for a U.S. coin when Stack's of New York sold an 1804 $1 for $77,500.00. (2) In the course of buying hundreds of collections in the years since we've been in the rare coin business (since 1953) we have never — repeat, never — had a seller who hasn't made a nice profit if he has held his coins for five or more years. That's quite a statement when you consider that these collections involved millions of dollars worth of coins!

We've always considered coins to be good investments. Not just any coins, but selected rare ones such as are used to make up a collection. Over the years those who have done best have been coin buyers who were collectors first and investors second. Take this route and you have the best of two worlds: you have the enjoyment, challenge, and prestige of building a meaningful set or collection of coins and, when the time comes to sell, you've built a worthwhile financial investment.

The other day we were perusing a catalogue we wrote ten years ago. To pass an idle moment we did some price checking. We found that over 95% — that's nineteen coins in twenty — of the hundreds of coins listed would return the buyer a very attractive profit if bought then and sold today. We wonder if any investment listing in any other field could have done so well? We doubt it. For those interested in what we charged for coins in the "good old days" of

NEWS RELEASE

James F. Ruddy and Q. David Bowers have just announced the formation of Bowers and Ruddy Galleries, Inc. Under the new name will be combined the former individual businesses of Ruddy Investments (operated by James F. Ruddy in Hollywood, Cal.) and Hathaway and Bowers Galleries, Inc. (operated by Q. David Bowers in Santa Fe Springs, Cal.).

Ruddy Investments' former offices in Hollywood are being doubled in size and will be the location of the new firm's main office headquarters. A complete rare coin service for collectors and dealers will be offered. The extensive inventories of both earlier companies will be combined, resulting in one of the finest stocks of choice coins in existence anywhere.

James F. Ruddy began his professional numismatic career with the formation of the Triple Cities Coin Exchange in Johnson City, New York, in 1954. In 1958 he joined with Q. David Bowers and established the Empire Coin Company in the same city. From 1958 until it was acquired by Paramount International Coin Corporation in 1966, Empire grew to be one of the nation's foremost rare coin concerns.

Empire Coin Company gained fame by handling many individual rarities such as specimens of the 1894-S dime, 1838-O half dollar, MCMVII extremely high relief double eagle, 1884 trade dollar, and other pieces. Prominent collections bought and sold were many. The Major Lenox R. Lohr Collection of nearly 1,500 different U.S. pattern coins still ranks unmatched today as the largest and most comprehensive such grouping ever listed and priced for sale.

Following the acquisition of Empire by Paramount, Jim Ruddy served as an officer of the latter firm. Several years ago he moved to California and established an independent coin business, Ruddy Investments.

In August of last year he published "Photograde," a pictorial guide to the grading of United States coins. The book, the result of several years of photography and gathering of information, has become a best seller in the intervening months and, as of this writing, is in its fourth large printing. It is rapidly becoming the nationwide standard of coin grading.

Jim Ruddy's wife, Nancy, has been active in coins since Empire Coin Company days and will serve as a director of the new Bowers and Ruddy Galleries, Inc.

Q. David Bowers formed Bowers Coin Company in Wilkes-Barre, Pennsylvania, in 1954. In 1958 the above-mentioned merger with Jim Ruddy resulted in the formation of Empire Coin Company, Inc. In 1969 Hathaway and Bowers Galleries, Inc. was established in Santa Fe Springs, California.

Dave Bowers has written several books, including the popular "Coins and Collectors," an illustrated history of coin collecting in America. In addition he has written extensively for the numismatic press and other publications.

Both Bowers and Ruddy are Life Members of the American Numismatic Association and hold memberships in other leading organizations. The new firm will be represented as a member of the Professional Numismatists Guild.

A spokesman for Bowers and Ruddy Galleries, Inc. emphasized that all orders and correspondence sent to Ruddy Investments or Hathaway and Bowers Galleries, Inc. will be taken care of in good order by the new Bowers and Ruddy firm. Any mail sent to the former Bowers address in Santa Fe Springs will be quickly forwarded to the new company headquarters. Subscriptions to the catalogues of either firm will automatically be extended by the new company.

A complete numismatic service covering all aspects of buying, selling, and numismatic research will be available for collectors. A series of illustrated priced listings and quality auction catalogues will be issued.

The Best Buys of the Month!

Via the pages of this *Special Coin Letter* you have first chance at what we consider to be the best buys of the month. This gives you an early opportunity to select from new purchases–plus interesting items from our regular inventory. We have priced each coin to be a good value for you. This plus our careful and conservative grading will mean that many if not most pieces will be sold out within a week or two of the time this listing appears. So, order by air mail or, better yet, telephone us to reserve the pieces of greatest interest.

United States Coins

The United States coins in this issue of the *Special Coin Letter* are mostly scarce and rare issues priced from $100 up to several thousand dollars or more. Use this listing to fill in those rarities and key dates you've been searching for. For years it has been our pleasure to have supplied rarities to nearly every major collection in the world; rarities which have included nearly every piece listed in the *Guide Book*. It is comforting for you to know that each and every coin you purchase from us is absolutely guaranteed genuine.

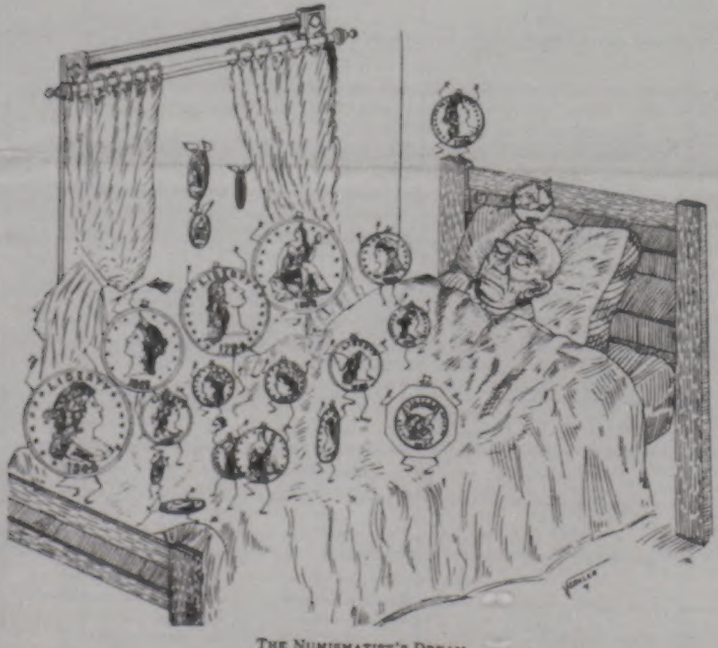

Coins of the World

As you will soon see on the pages to follow, emphasis in this 16-page *Special Coin Letter* issue is on coins of the world. We've listed pieces in all price ranges, but mainly from $10 to $20 up through several hundred dollars. Included are many pieces purchased by us at the American Numismatic Association convention in Boston in August and just catalogued and put into our stock the first week in October. So, you have first chance at many really fine coins!

As of this writing, each and every coin listed is available. However, that certainly won't be the case a few weeks from now. So, air mail orders or telephone calls are encouraged! It is also a good idea (from your viewpoint and ours, too) to have a list of alternate choices in case the first items asked for have been sold.

Please note that our coins of the world are listed under two headings: "General Coins of the World" and "Gold Coins of the World." So, be sure to look in *two* places to find pieces from countries you specialize in.

Speaking of coins of the world, it is not too early to mention that our American Auction Association sale to be held in conjunction with the Numismatic Association of

THE NUMISMATIST'S DREAM.

(from a 1907 issue of "The Numismatist")

Terms of Sale

1. Enclose remittance with order unless credit has been established. A prompt cash refund will be given for any part of an order not filled.

2. All items will be shipped postpaid via fast first class or air mail. California residents add state sales tax or furnish resale permit.

3. As many items in this *Special Coin Letter* are one-of-a-kind in our stock, alternate choices will be appreciated–and will not be used unless the first items requested have been sold. If you are ordering for a type set, just put "same type" as your second choice and we'll substitute a coin of the same design type and of equal or higher grade and value if the first item requested has been sold. Title to all items remains with Bowers and Ruddy Galleries, Inc. until payment in full has been received. All items are subject to prior sale or price change without notice.

4. GUARANTEE: Any item not satisfactory for any reason may be returned within 7 days for an instant cash refund. No explanation is necessary. We're not happy until you are! Coins are graded by *Photograde*. All items are absolutely guaranteed genuine.

5. Master Charge: Any item may be charged to your Master Charge account by sending us all of the information in raised print on your card.

6. Visiting Us: Office hours are Monday-Friday 9:30 to noon; 1 to 5 p.m. As rare coins are kept in bank vaults, an appointment is recommended so we can have a selection of rare coins on hand for you to view. Visit us the next time you are in the Los Angeles area.

Choice coins of the world include both minor and crown-size issues of a wide range of countries.

A FEW WORDS ABOUT COIN WORLD

We're old-time friends to tens of thousands of Coin World readers all over the globe. Our first Coin World advertisement appeared in 1960 — in the very first issue of Coin World. Since that time we've sold millions of dollars' worth of choice and rare coins to discriminating buyers, mostly advanced collectors and dealers.

At Bowers and Ruddy Galleries, Inc. coins are more than just a business; they are a personal interest. A good deal of our time is spent with numismatic research and authentication, writing, and similar projects. A number of major numismatic discoveries (the 1888-7 Indian cent and the 1938-D over S nickel, to name just two) have been made or verified by our Research Department — and published first as news in Coin World. In addition, Dave Bowers of our staff, author of "Coins and Collectors," regularly appears in Coin World with his "Numismatic Depth Study Column."

So, chances are good that you already know quite a bit about us. But, we would like you to know more!

Although tens of thousands of Coin World readers have done business here, there are still thousands who have never written to us. Why? Well, there are any number of reasons. If you're among these persons, you may think that ordering by mail is risky — or perhaps you're concerned that you'll pay, say, $50 and get a coin worth only $40 or, worse, a piece that is not genuine. Or, you may say "I want to see what I am buying."

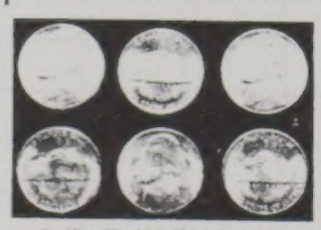

Well, your worries end when you do business here! First of all, the safe delivery of every order is absolutely guaranteed. You either get the coin you order or you get your money back in full — no ifs, ands, or buts! We take care of the shipping and insurance costs. There are no handling charges to pay.

Our grading policy. We're really fussy about grading. All coins are strictly graded by James F. Ruddy, using his "Photograde" system. We don't "stretch" grading. If you order a Proof coin from this Special Section, an authentic Proof coin — and a choice one — is what you'll receive. If you order a Very Fine coin, you'll receive a Very Fine coin — a coin that you can submit for inspection to your coin club, your neighborhood coin dealer, or a fellow collector and know that you'll be proud to show it. We do not — repeat, DO NOT — sell "processed" or "treated" coins at Bowers and Ruddy Galleries, Inc.

Our pricing policy. To our knowledge we have the largest inventory of rare coins owned by any dealer in the world. Our tremendous volume of business and constant turnover of inventory enable us to work on a lower margin of profit. We operate our business efficiently — and pass the savings on to you! Our profit is modest on each coin, but our large volume of business makes up for it. The net result is that you do well as a Bowers and Ruddy Galleries, Inc. customer — and we do well also. What could be more ideal?

Quality and Value. Where can I get the most for my numismatic dollar? We believe the answer is: "at Bowers and Ruddy Galleries, Inc." Anyone using come-on advertising or phony "bargains" can lure a one-time customer. We don't do this. We are not after one-time sales; we are interested in repeat business. It may be interesting for you to know that many of the customers who were buyers from us when we first started business in 1953 are still good customers today. In fact, nearly all of our business is repeat business — sales to discriminating buyers who ordered once (perhaps hesitantly at first), liked the quality received, and who have ordered time and time again.

Special Offer This Issue!

Sparkling BU 1945-S Nickel Just 50c!

[illegible] Special Offer this [illegible]. With any order in the amount of $50 or more you may purchase [illegible] choice Brilliant uncirculated 1945-S nickel [illegible] which is currently [illegible] in the [illegible] book of U.S. coins. This nickel has the large "S" mintmark above the dome of Monticello and is of the popular wartime composition — 35% silver nickel type.

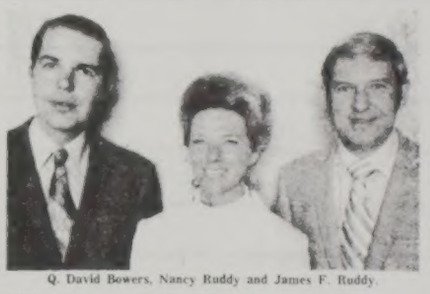

As the 50c price is below wholesale we make the following limitations: (1) Just one coin per customer. (2) Offer limited to the number of coins we have on hand, enough, in our opinion, to take care of 25 orders received by December 18th. Request "1945-S Nickel Offer" and add 50c to the total of your order. Use order Blank on Page 28.

Your Friends In The Rare Coin Business

"Your Friends in the Rare Coin Business" is the little slogan we've been using for some time now. This was originally inspired by a New York City customer who said "I think of you not as dealers or as businessmen, but as personal friends." We thought that sounded nice — and summed up our philosophy.

Bowers and Ruddy Comparison Test Famous

So convinced are we that you get the best VALUE for your money here that we invite you to make the famous Bowers and Ruddy Comparison Test. After you receive your coins from this Special Coin World Supplement you have seven days to compare them with coins ordered elsewhere. If ours aren't the very best buys we URGE you to return them to us! Are we taking a big chance by making this offer? Not really. We know the QUALITY and VALUE we deliver — and of the thousands of coins we'll be sending out to Coin World readers we'd be indeed surprised to receive even a single coin back as the result of an unfavorable comparison! However, the Comparison Test is sincere and is available for you — and it's backed up by our money-back guarantee. You get QUALITY and VALUE from Bowers and Ruddy Galleries, Inc.

How To Order From This Section!

Check this Supplement carefully — and pick out the coins that interest you most. You can send your order by air-mail, or you can telephone Nancy Ruddy at (213) 466-4595 and she will reserve the coins for you. If your order is for $200 or more, telephone COLLECT from ANYWHERE in the United States. Call during office hours which are Monday to Friday, 9:30 to noon and 1 to 5 pm. See our Terms of Sale for other ordering information.

Incidentally, each and every coin in this Special Supplement is actually in our stock at the time the supplement is prepared. We don't advertise things that we don't have. However, many coins are one-of-a-kind in our stock, so be an early bird and telephone or write within a day or two of when you receive your Coin World issue. Two or three weeks from now, most of the best buys will have been snatched by others!

Second choices will be appreciated and will ONLY be used when the first items requested have been sold. If you're ordering for a type set and the date is not important, just put "same type" as your second choice and we'll send a coin of the same design type and of equal or higher grade and value if the first item requested has been sold.

A Treasure Hunt Awaits You

ABOUT ISSUE #1

Having read foreign coin fixed price lists from all over the U.S. and abroad for about 15 years, I can tell you that the opening statement, when there is one, often goes something like this: "We would like to thank our many valued customers for the FANTASTIC response to our last list . . . etc. etc." Knowing that the normal sales rate on any given price list (with exceptions of course) is a very respectable 25% to 35%, I'd say that some folks are given to hyperbole in this regard. In view of what I've just told you, I'm a little hesitant to say that . . . we would like to thank our many valued customers for the FANTASTIC response to our last list [Nummus Mundi #1]! Truly, your response was tremendous and for this, we thank you very, very much. Almost 80% of the coins offered were sold. Many of you who received "sold out" letters or phone calls, know that the early bird got the worm, so this time don't wait so long—call now (you can use our toll free numbers) to reserve any item that interests you. The most often asked question was "How can it be sold? I just got my list today." As usual mail delivery was very irregular with people in the same state often receiving their copies weeks apart. I wish I could say that mail service will improve, but I doubt it, so again, to avoid disappointment, order quickly.

To acquaint you with what your fellow collectors are buying these days, here are several areas popular on Nummus Mundi #1. Generally there was across the board interest but we received the most duplicate orders for the German and other European crowns and talers and just about anything in high grade. A few words about condition are in order here. Though it is certainly very important to buy the best grade possible, please bear in mind that early European talers and other world coins of similar periods and especially ancient coins, just do not appear in uncirculated condition, or high grades in general, nearly as often as do United States coins of the 19th and 20th centuries. The collector may well content himself with pleasing very fine coins if they normally do not appear in higher grade. Though a subjective term, "pleasing" usually refers to coins which are evenly worn, well struck if applicable and often having attractive natural toning acquired over the years or centuries. With regard to ancient coins, style (the quality of artistic workmanship) and to a lesser degree, centering, are also important. Such coins are very desirable and should be prized by collectors along with higher grade specimens. While on the subject of grading, we'll mention that we use generally accepted standards and terminology as understood by knowledgable collectors and dealers. Adjectives are used to more accurately convey the condition and appearance of coins, not to increase the grade or price.

COLLECTING AREAS WITH POTENTIAL

The wide array of coinage presented in NM #1 seems to have stimulated many collectors to consider collecting foreign coins and indeed quite a large number purchased their first foreign coin from that list. Others renewed old interests and picked up where they left off a few years ago. Still others called, and said that they liked everything, but couldn't buy it all, so where do they start? And there were also individuals wanting to collect for pleasure but who had investment in the back of their minds as well.

So, what to collect? If you have a strong interest in a particular area, for historical or other reasons, collect that area, putting investment aspects aside for now. Become a specialist, as comprehensive specialized holdings of an advanced collector usually becomes a good investment anyway. If you want to have fun collecting in a good investable area, understand what causes price increases—demand—and where that demand comes from. All over the world, just as in the United States, people usually collect their own coins first. Demand great enough to cause price increases is more likely to occur in countries where there is a strong developed economy and sufficient leisure funds in the hands of its citizens. Germany, Switzerland and other Western European nations, Japan, and of course the United States are examples of countries with a well established and highly organized coin market. These coins have always done well and should continue to do so. Portuguese and Italian coins had substantial flurries of interest a few years back which cooled for a time due to a change of government and strict import and export regulations, respectively. Market conditions are changing now and both seem to be good areas for price appreciation in the future. British coins have been very active recently, with accompanying price increases, and strong demand both in the home country and here in the U.S. indicates further upward price movement.

Latin American coins have always been popular, but the collector base is smaller in these nations due to a more widely disparate distribution of income. However they are also widely collected in the U.S., providing an additional ready market for choice specimens. The same is true of Mexican coins of which there is probably an even greater number of American collectors, and don't forget Brazil, the emerging giant of South America, whose coinage is sure to become more popular with collectors there. In general, all choice or rare Latin American coins should prove to be good long term investments while providing lots of collecting pleasure. With the advent of more liberal diplomatic relations with China, several people inquired about the advisability of forming investment portfolios of Chinese coins. Though it will probably be quite a while, if ever, before the mainland Chinese openly collect their own coinage, this is another good area for future price appreciation. Chinese coins have long been collected in the U.S. and overseas, especially in southeast Asian nations by transplanted Chinese. There has been no noticeable speculation with Chinese coins and there is always an eager market for rare or choice coins. Likewise, Russian coins have not been speculated in and they too comprise an area for consideration.

Rare Coin Review

Bowers and Merena Galleries, Inc. Box 1224 Wolfeboro, NH 03894 (603) 569-5095

This issue of the *Rare Coin Review* comes to you from Wolfeboro, New Hampshire. For several years Wolfeboro has been the location of the Research Facility for Bowers and Ruddy Galleries. Many important publications have been researched and produced here, including certain of the Garrett Collection catalogues for The Johns Hopkins University, the catalogue for The United States Gold Coin Collection, the regular and special edition catalogues for the incomparable collection of 1794 large cents owned by John Adams, the book *United States Gold Coins: An Illustrated History*, and many more.

In January, on January 7th to be precise, Bowers and Merena Galleries acquired assets of Bowers and Ruddy Galleries from the parent firm, General Mills. Earlier, in 1974, General Mills, a diversified company whose divisions include Lionel trains, Parker Brothers games, Izod ("alligator") sportswear, H. E. Harris Stamp Company, and other enterprises in addition to the familiar Betty Crocker food line, acquired Bowers and Ruddy Galleries from Q. David Bowers and James F. Ruddy, owners. In 1982, as part of a planned divestiture program, General Mills sold its stamp firm, H. E. Harris, to private investors. Certain assets of Bowers and Ruddy Galleries were acquired by Q. David Bowers and Raymond N. Merena. The name Bowers and Merena Galleries reflects the current management and ownership.

Interestingly, a number of our clients and potential consignors to our auctions were "waiting in the wings" during the lengthy transactions with General Mills. Now we are pleased to announce that the Connecticut Historical Society, the estate of M. Vernon Sheldon, and a number of others have consigned magnificent properties to us for our 1983 auction season. Coming up is a beautiful sale to be held in Dearborn, Michigan April 7, 8, and 9 in conjunction with the Central States Numismatic Society Convention, as well as other auctions scheduled for June, August, October, and December in New York, Los Angeles, and other cities. Thinking of selling? Karl Hirtzinger, managing director of our Auction Department, would be delighted to hear from you by telephone or letter. Our commission rates are reasonable, our "grand format" catalogues are unsurpassed by any firm in the industry, and our record prices are unequalled (we hold nine of the top ten world's record auction prices!). Whether you have $2,000 worth of coins to consign (our minimum due to bookkeeping considerations) or $25 million worth (as The Johns Hopkins University did when it consigned the Garrett Collection), we believe we can provide you with the finest auction service available today.

A beautiful panorama of coins for sale is offered to you in the present issue of the *Rare Coin Review*. Raymond N. Merena, Karl Hirtzinger, Q. David Bowers, and others have been busy buying collections, groups, estate items, and other coins, currency, tokens, medals, and related items. Highlights from these purchases are offered in the present *Review* issue for your consideration.

Wolfeboro as shown in an 1879 engraving.

SPECIAL COIN LETTER

June 1984 No. 1001

Bowers and Merena Galleries, Inc. — Box 1224 — Wolfeboro, NH 03894 — Telephone (603) 569-5095

This issue of the *Special Coin Letter* heralds a "new era" in this publication. As previous issues, which date back many years, were either not numbered or were numbered erratically, we have commenced the present issue with number 1001 (thus avoiding confusion with our numbering system of the *Rare Coin Review*). The *Special Coin Letter*, which we hope to issue on a monthly basis, will be included as part of the existing subscriptions to present *Rare Coin Review and auction catalog subscribers—for no extra cost.*

The rare coin market is very active now. Our main problem is buying coins, not selling them! While we have "held the line" on the prices of certain popular issues such as Washington quarters, Liberty Walking half dollars, Morgan dollars, and the like, we anticipate numerous price adjustments by the end of the summer. The rebound of the American economy, the specter of a $200 billion federal deficit, and other considerations point to good times for the rare coin hobby ahead. On a less financial plane, we note that each month sees more and more people become *serious numismatists.* We like to think that the large number of reference books we send out each day (Sandi Scott, Manager of our Publications Department, is one of the busiest people in our office!) has something to do with this.

Speaking of reference books, Dave Bowers' new *U.S. Copper Coins: An Action Guide for the Collector and Investor* book, 176 pages in length and profusely illustrated, is now being printed and should be ready for distribution in July. Available for just $9.95 postpaid, the volume gives an insider's view of copper coins from half cents to large cents through Indian and Lincoln cents and, finally, two-cent pieces. Why are certain items rare? Why are certain pieces underpriced? These and hundreds of other questions are answered in detail. Order your copy today, and you will get one immediately upon publication. Of course, your complete satisfaction is guaranteed!

Here at Bowers and Merena Galleries, deep in the heart of New England, we are constantly buying estates, old-time collections, groups, and other properties. We like to call ourselves "Action Central in the coin business." Tom Becker, our Senior Numismatist, could probably use 48 hours in a day if this could be arranged! As it is, he is busy from morning to night. The bottom line of this is that you get *personal service* from Bowers and Merena Galleries. And, the volume of orders we receive indicates that our customers agree with our *superb values.* Typically, a client will order something from us, perhaps hesitantly at first, like what he or she receives, and then order again and again. Many clients have been with us since the early 1950s when we first began business!

See something interesting? Give Tom Becker a call at (603) 569-5095 and he will hold "That Special Item" for you. Or, you can charge it to MasterCard or Visa for immediate shipment. And, of course, we invite your orders by mail as well. Either way, some really wonderful coins are presented in the pages to follow. Check each and every page carefully—and then send us your order!

Terms of Sale, Grading, & Other Information

1. Enclose your remittance for items ordered, or use MasterCard, or Visa (send all the information in raised print on your card, and be sure to sign your order). Please list alternate choices if possible (these will only be used if your first choices have been sold earlier). If you are ordering for a type set, just put "same type" as your second choice.

2. Please add $3 postage and handling for all orders. Orders will be sent insured, either through our private carrier or the U.S. Post Office.

3. Office hours are Monday through Friday 9:00 to Noon and 1:00 to 5:00. Any item can be reserved by telephoning (603) 569-5095 (ask for our Order Department) during this time.

4. GUARANTEE: Any item not satisfactory for any reason, including grading, may be returned within 30 days of receipt. After that time all sales are considered final (with the exception that all items are guaranteed to be authentic forever). All grading terms, including adjectival and numerical descriptions, are the opinion of the cataloguer and are not an attribution. No warranty, expressed or implied, is made with respect to such descriptions which can and do vary among experts. As the future is unknown, no guarantee of any kind is made concerning the investment performance or future price of any item sold.

5. All transactions are deemed to take place in New Hampshire as the place of venue, under Carroll County and New Hampshire state laws.

6. All coins are kept in bank vaults. We maintain no over-the-counter facilities. We do attend certain national and regional conventions and are pleased to meet our clients in person there. We are just as close as your telephone or mailbox.

7. This price list cancels all previous lists and quotations. While we have endeavored to avoid typographical errors, we cannot be responsible for any such errors which may occur. All items are offered subject to prior sale or price change.

8. We employ the *Photograde* and ANA grading system. We are conservative when it comes to grading, and we have found that many of the pieces that we call MS-65, for example, are as nice as those called MS-67 by certain of the competition. For this reason we seldom use the MS-67 or Proof-67 classifications.

Catalog Supplement

FEBRUARY - MARCH, 1976

Dear Customer and Friend,

As you know, we have always been known as an "up front" company. We try not to confuse the issues with ambiguous statements and rhetoric. We were the first company to offer a grading guarantee. In developing this guarantee, we tried to make it as short and meaningful as possible. We even went so far as to publish our grading standards in a pamphlet, which you have received.

While we were formulating our guarantee, we consulted with some of the most important people in the A.N.A. Our finalized guarantee was based on the ideas of many of the people responsible for the creation of the Grading Board. One of the predominant thoughts of the people involved was that while grading should be concise to the letter grade, there are, regardless of what some people say, legitimate differences of opinion within a particular grade. In all likelihood, the proposed Grading Board itself will operate under these guidelines. Our guarantee was tailor made around these ideas.

Since our guarantee was originally published, several companies have followed suit. We feel that eventually all dealers will offer some form of grading guarantee. These guarantees issued subsequent to ours, like our guarantee, offer to adhere to the standards of the Grading Board. These guarantees do not mention, however, as do we, that the proposed Grading Board will likely have a 5-point tolerance within a grade.

Our guarantee was written stating all the facts, and was not intended to confuse anyone. It has always been our intention at Steve Ivy Rare Coin Co. to deliver properly graded coins at fair prices, and it will continue to be our policy in the future.

Sincerely,

Steve Ivy

GER-MAN NOTGELD
PORCELAIN
and
METALS

PLEASE READ

Having recently purchased the extensive collection of one of Germany's leading numismatists, my intent was to sell the thousands of pieces "as they run". However, so many collectors have written me for a list of the types, by cities, denominations and metal that I finally agreed to this tremendous undertaking. This list does not purport to be a complete list of German metal notgeld as I have already sold many hundreds. The list represents the number of pieces I have available for sale at this time, and number approximately 1250 different types.

In fairness to me and to compensate for the countless hours of work involved, I am setting the following prices:

15¢ each --- 10 for $1.25 --- 100 for $10.00

Included will be beautiful brilliant uncirculated ones as well as the ordinary poor surface of a zinc piece. No coins grade under good, most are fine.

And - finally - ALL SALES ARE FINAL. I cannot undertake to send this material on approval. The list is very specific and should tell you whether or not you have the particular type. It is well, too, to specify an alternate list.

POSTAGE AND INSURANCE EXTRA ON ORDERS UNDER $5.00. IMMEDIATE DELIVERY

Back to Basics! Despite Reagonomics, also despite Section 314b of the Economic Recovery(?) Act of 1981 and also HR #1783 (never passed, thank you), we have decided to resume KATENS' BARGAIN LIST last published in March 1969. Even the subscription rate remains the same - Four Issues $2.00. We hope you will subscribe and help pay for the, we hope, interesting lists.

Our aim is to list a potpourri of numismatic and philatelic items at back to basic prices. Also we are again soliciting WANT LISTS of your needs whether it be Coins, Stamps, Numismatic or Philatelic Literature and even supplies.

U.S. Quarters and Half Dollars all MS-60. Prices in parenthesis are current retail.

Kelly's COINS and CHATTER

JAMES KELLY
3rd and Broadway
DAYTON 7, OHIO

MEET MY BABY

This is the first and a trial issue of COINS AND CHATTER, It is to be a bi-monthly publication starting with the September 1st issue. It's purpose is to bring you news and information on Numismatics, as well as coins sensibly priced and honestly graded.

I will endeavor to cover the entire Numismatic field, both with offerings and information. There will be a QUESTION AND ANSWER DEPARTMENT where you may come for information. Articles on famous collections and collectors, past and present. New issues and current events will be discussed.

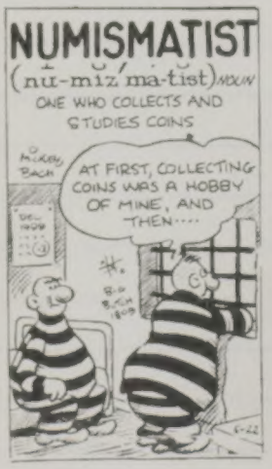

COINS AND CHATTER, issued twice-monthly, will enable me to offer you merchandise as soon as it comes in. Ever since I started in business I have been trying to find a satisfactory method of presenting material to the collector so that disappointments will be at a minimum. Ads in magazines are always thirty to sixty days old. Price lists, when printed, require three to six weeks to put it out so you can readily understand why so many items you write for have been sold.

COINS AND CHATTER will be photographed and printed on an offset press requiring but three days time. I have now set up an addressograph system so that my entire mailing list can be addressed in half a day. Mailing will be by zone so that every one will receive their copy at the same time. This adds up to the fact that I can present material to the collector within a week from the time lists are prepared and give everyone an equal chance.

This and other trial issues will be mailed to my entire mailing list but starting with the regular September issue, it will only be sent to my active list.

1864 3¢ Silver
Only 470 Coined .. Br.Proof $42.50

There is a very interesting story connected with the dozen or so of the above coins that I recently purchased. When the estate of William H. Wooding (former Secretary of the Treasury) was sold, there was a safe that was closed and the combination lost. It was sold as is and when opened was chuck-full of coins and patterns. A small lot of these 1864 3¢ Silver were among the contents. They were held intact for many years until purchased by me last November.

In 1941 the Proof Half Dollars were coined with and without the designer's initial "W" (Weinman). There is some question as to which is the scarcer. I offer the pair, with and without initial, at a special price:

Kosoff's
COIN BULLETIN

Published by A. KOSOFF, P. O. Box 456, Encino, California, for Interested Collectors.
Phone STate 4-5005

NUMBER 1 **SEPTEMBER** **1954**

WE HOPE YOU LIKE US

IT'S been just about a year and a half since I last edited such a periodical. Since the same mailing list is being used, most of you will remember the Numismatic Gallery Monthly. Your letters indicated that you liked it—many offered to subscribe to it, and we enjoyed putting it out.

Unfortunately the pressure of other affairs prevented a regular release and it was with regret that it was discontinued in April, 1953. Now I hope to take up the regular periodic release of KOSOFF'S COIN BULLETIN.

You are invited to criticize, suggest, buy, sell, trade, or what have you. Interesting articles, news items, etc., pertaining to numismatics or numismatic personalities are welcome and will be published as space permits. We hope you like us.

CARSON CITY COINAGE

A splendid collection of the silver coins of the Carson City Mint is being marketed by the Numismatic Gallery. If your wants include CC coins—send us your list.

CHOICE U.S. COINS AT MARKET-WHOLESALE PRICES!!
★ ★

Here at New England RareCoin Galleries, we are wholesale dealers in the true sense of the word! Of the $300,000 or so business that we've done so far this year, over 90% of it has been with other dealers. And when we go to a major convention, we seldom return with much more than half of the coins we bring with us!! In fact, we know of no major dealer in rare U.S. coins with as fast a rate of turnover as we have.

Now, we are trying our hand at advertising, and selling coins to the public. We are offering coins to you at pretty much the same prices we have been getting from many of the country's leading dealers. Your response to this ad will determine whether or not we continue this program.

But first, a word about our policies:

GRADING: We are known in the trade for our accurate and conservative grading. We do not grade V.F. coins as E.F.'s to sell at a V.F. price. Our E.F. coins are true E.F., and the same goes for every grade listed, from FAIR to GEM PROOF. Many of the dealers who buy from us sell E.F. coins RETAIL for less than our WHOLESALE price. How can they do this? Obviously, they sell our V.F.'s as E.F.'s, and our E.F.'s as A.U.'s (or better!).

Our prices are probably the lowest to be found anywhere for legitimately graded coins. That is not to say you won't find coins advertised at lower prices than ours, but we'd wager that almost any coin advertised at a lower price than ours will not be as conservatively graded as the one we offer.

B.U. COINS: Our B.U. coins are strictly B.U., not merely "close" to B.U.. We do not sell processed or "whizzed" coins. Our choice coins are of very select quality, and should satisfy the most demanding of collectors. Gem B.U. coins are fully struck, fully brilliant and flawless or very near-flawless specimens. Our Gem's will please anyone!

SERVICE: All orders will be sent out within 48 hours of receipt (usually same day received), and all will be filled on a first-come, first-served basis. We expect to be about half sold out within 2 days and about 80% sold out within a week. Immediate refunds will be sent in the case of presold merchandise.

APPROVAL, PHONE & C.O.D. ORDERS: You may call to reserve any coin, and we'll hold the coin(s) aside for you for up to 5 days. Paid-in-advance orders will take priority over C.O.D. orders. Approval orders will be accepted with commercial & bank references, only after all paid-in-advance and C.O.D. orders have been filled.

PRICING: We have tried to price each coin based on what we feel a dealer would be willing to pay for it if he needed it for stock or for a customer. That is not to say that any dealer would buy every coin in this ad at our price. However, we are confident that if we brought every coin in this ad to a major coin convention and offered them to dealers at these prices, we would probably sell most of these coins by the end of the convention. We feel that by advertising these coins at these prices, we should probably sell an even greater percentage of these coins than we would at a coin convention. (By the way, this ad is costing us about the same as our expenses would probably be to attend a 4-day coin show in California.)

Let us hear from you soon. He who hesitates is lost!

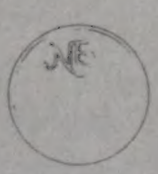

Sincerely

Russ Vaughn & Jim Halperin

New England's Largest Rare Coin Dealership

HOW TO BUY COINS FROM THE SOURCE

Dear Coin Dealer,

New England Rare Coin Galleries is one of the leading retailers of rare and choice United States coins in the world. However, few people realize that more than half our business is wholesale, to other dealers. Virtually every major dealer in United States coins buys coins regularly from us. Remember, we're in New England, where many United States coins come from. And being New England's largest rare coin dealer, a lot of those coins get offered to us.

We want you to be able to buy from the source, too. So we have issued this price list for dealers only. All of our coins are listed with our retail price, and then your net wholesale price right next to it. The margin will vary depending on our cost and other factors. You'll like the grading – other dealers tell us it's the most conservative and accurate in America.

You'll find us very easy to do business with. We'll help you locate those items your customers need, if we don't already have them in stock. And we'll gladly ship anything to you on approval, if you supply us with adequate credit reference, or if you're already known to us.

I am looking forward to working with you. Give me a call or write to me today. If we work together, we can both profit.

Best regards,
New England Rare Coin Galleries,

Chris Tracey

Director, Sales Department

P.S. We are always interested in purchasing nice U.S. material. We will pay you a finders fee when you refer a collection to us. (Call Russ Vaughn of our purchasing department). We also conduct major public auction sales at least three times a year, and offer reduced commission rates to dealers. (Call or write Lee J. Now there's even more reason to visit New England.

This is our first mailer since we moved to our new offices at 89 Devonshire Street in downtown Boston. Our modern galleries are nearing completion and will open in September. Since the Galleries' opening and the Atlanta ANA will fall within a few weeks of each other, we have made several major rare coin purchases to increase our inventory for these events. This offering is a preview of these new purchases for our regular customers.

In addition to the large offering of new purchases is a select group of specials. These specials include some excellent values, so look them over carefully.

Also included in this mailer is a complete offering of silver and gold commemorative coins. Every coin is priced to sell, yet the same famous New England Rare Coin Galleries' grading is assured.

THE MARKET IS BOOMING!

Not since 1974 has the coin market experienced such rapid, dramatic growth. The coins we listed in our last mailer in October sold so fast we could hardly keep up with the orders!

Investors, it seems, are searching for more profitable, reliable alternatives to the instability of the stock market, and rare coin investment is providing such an alternative. This situation, coupled with the current "gold craze," has vitalized the coin market in recent months. And it's not only gold that is spurring the market — the demand for silver dollars is putting considerable pressure on the available supply. Dealer list prices continue to rise for these coins, and they're becoming increasingly difficult to locate. Rare coins have proven to be tremendous investments in the past, and present economic and numismatic indicators point to an equally promising future.

This listing offers you an attractive selection of entirely new purchases, plus a number of very special prices on some very choice coins. If we can be of any assistance with your order, please give us a call.

THANK YOU FOR OUR BEST YEAR EVER!

1977 has been one of the most eventful, profitable years in the history of New England Rare Coin Galleries. Many new employees have joined our ranks (note the addition of Charles Browne to our retail staff roster), and we've moved our headquarters into downtown Boston. Our office space and facilities have been markedly increased, and this month, we're proud to announce the opening of the most modern, innovative coin gallery in the business. This new outlet features a full line of numismatic reference material and collecting supplies, AND provides an excellent display for our expanding inventory of quality U.S. rare coins.

We invite you to look over this month's inventory listing — we know you'll find the perfect coin for your collection.

And, on behalf of the entire staff here at New England, we'd like to thank you again for making this our best year ever! Have a Happy Holiday Season!

Mid-Winter Market Report

January can sometimes be a quiet month — recovering from the holidays, settling in for a long, cold winter — but we haven't been taking it sitting down! We've been attending shows, replenishing our inventory, and planning for our upcoming auction.

The Metropolitan New York Sale, to be held March 31-April 1 in conjunction with the Metropolitan New York Numismatic Convention, promises to bring strong prices in every area. *And*, we're introducing some *new* features — an extensive selection of rare fractional currency notes, and a choice offering of ancient coinage. As usual in a New England Rare Coin auction, the majority of lots are excellent specimens of top quality U.S. coin issues. With the market as active as it is right now, we're looking forward to some *very* spirited, record-breaking bidding.

If the recent Florida United Numismatists' Convention is any indication, the A.N.A. Mid-Winter Convention in Colorado Springs (February 16-19) should feature a fast pace of buying and selling. As of this writing, gold prices are continuing to climb on the international market in response to the devaluation of the dollar. More and more, coins are becoming a popular investment medium; demand for the decreasing number of high quality coins on the market is on an upswing, and prices are rising accordingly.

This is a *very* good time to buy — so look over these selections carefully. We look forward to hearing from you.

Chris Tracy Jay C. Miller

Charles Davis

P.S. Don't miss our special Pattern offering — we've drastically reduced the prices!

GET A DOLLAR FOR FREE!!

To introduce you to our stupendous March discount mailer, we'd like to make you a very special offer. If your purchase from our inventory selection totals over $200, we'll give you a *free* 1928 Series A Silver Certificate as a bonus! You'll get a Gem Crisp Uncirculated note, Fr. #1601, with the signatures of Woods and Mellon, that currently retails for $10. The certificates are all from an original, Federal Reserve wrapped bundle from 1930. (If you wish, you may purchase a packet of 10 of these notes, in serial number order, for $90.) How often can you get a dollar for free?!

But this Silver Certificate offer is really just icing on the cake — the *real* bargain is our special discount prices. From now until April 21, you may deduct 10% from the total price of your order from this mailer if that total is $200 or more. If your total order is under $200, deduct 5%. Why the time limit? With activity in the coin market as fast-paced as it has been in the recent past (and is likely to continue to be), the replacement prices for these coins by the end of April will have risen to the point where we feel we'll no longer be able to offer a discount. Right now, we're operating on the principle that: the higher our volume of turnover, the more cash we have available to replenish our inventory. And the sooner we can buy new coins, the better for you; prices are climbing steadily, and we must unfortunately pass these increases on to our customers. We're just trying to keep one step ahead of the market.

We cannot emphasize enough that the coin market is experiencing a boom unlike anything that's been seen in recent years, and that the time to buy in to the market is *now*. With the U.S. Dollar hitting a record low abroad because of the "massive United States balance-of-payments deficit and a conviction that the Carter Administration is not going to take more active steps to support the currency" (*New York Times*, March 2, 1978), numismatic investors are likely to keep up the coin market's incredible momentum. Choice material is becoming more and more difficult to locate.

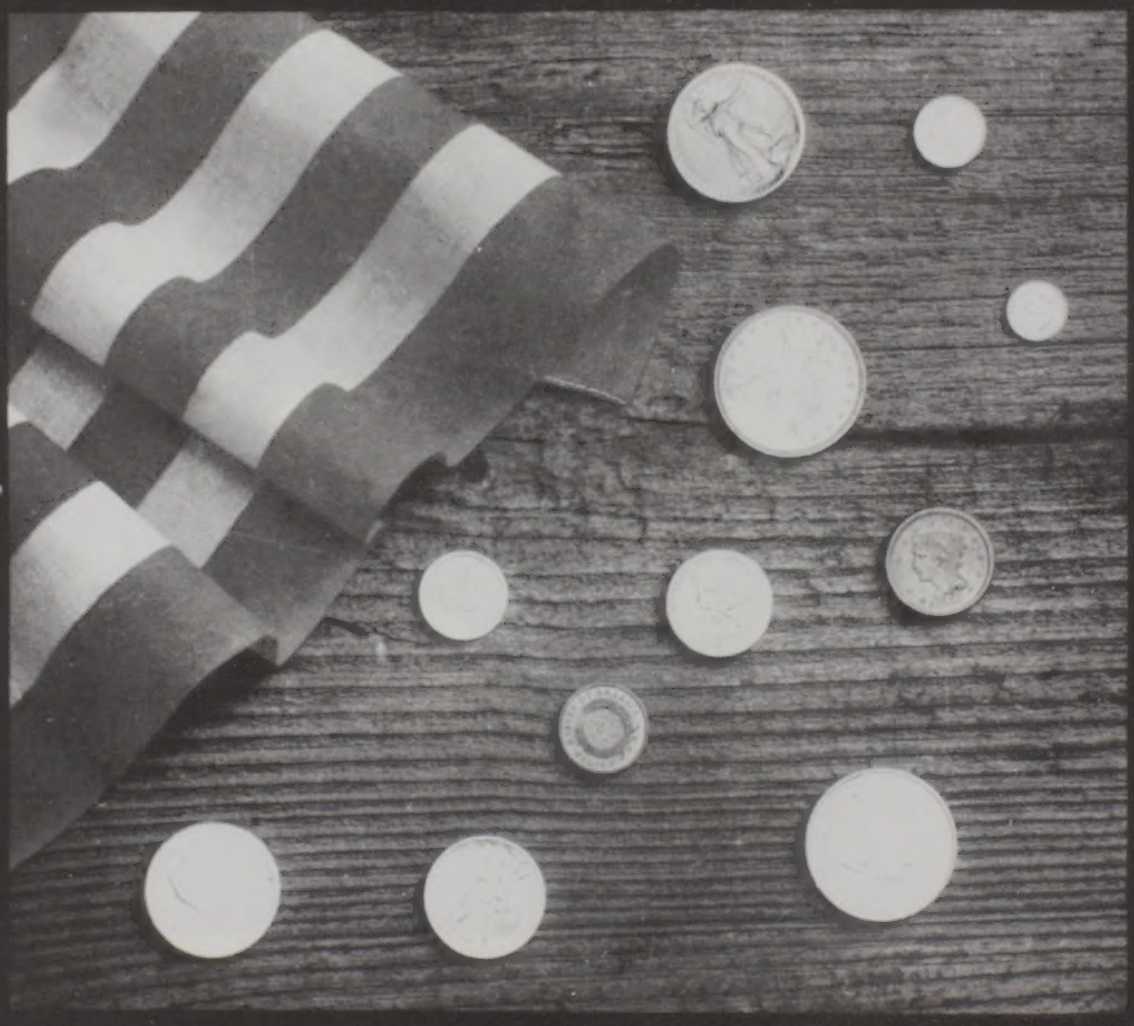

So be sure to take advantage of *both* of our special offers. Remember, if your order is under $200, deduct 5%, and if the total price is $200 or more, deduct 10%, and get a dollar for free!

INTRODUCTION

Mintage figures can cause confusion when it comes to coin investment. For instance, the 1911-D Quarter Eagle has the lowest mintage and is the rarest of the Indian Quarter Eagle series. To some, it would seem to follow that the lowest mintage would dictate the greatest rarity for other series as well. Not so! In the Peace Dollar series, for example, the lowest mintage coin is the 1928-P. However, the rarest and most expensive Peace Dollar in mint state, the 1934-S, has nearly 3 times the mintage and yet sells for 5 times or more what the 1928-P sells for. While mintage is very important, it is not the only determining factor in rarity or price.

While most collectors understand this, a surprisingly large number do not. A letter recently appeared in a numismatic publication from a disgruntled collector who was trying to buy a BU 1934-S dollar for his collection. He argued that since a 1928 cost $200, the "three times as common" 1934-S should cost only one third as much, or about $70. He said he wasn't going to buy a 1934-S until the "obvious typographical error" was changed in the Red Book. Incredibly, the numismatic publication let the letter stand unanswered. Many readers new to coin collecting undoubtedly read this letter, thought it seemed logical, and vowed they wouldn't buy *their* 1934-S for a while, either. The "obvious typographical error" was never changed, or course, because it was not an error at all. The author of the letter was confused by mintage figures and assumed mintage equals rarity equals price. This is known in economics as a "post hoc, ergo propter hoc" fallacy, and such reasoning leads to obvious problems, such as the one above.

This is the first of a serjes of New England Rare Coin Galleries investment letters. The purpose of these investment letters is to help you avoid some of the pitfalls of coin investment. If we are to find the best investment, it is necessary to "root out" the errors of the past. If coin dealers, collectors, and investors knew exactly what the true rarity of each coin was, there would be a steady "across the board" increase on all issues as the demand increased. Instead, some coins show a meteoric rise in price while others remain unchanged. The tremendous growth on some issues is due usually to newly acquired knowledge – knowledge that coin "X", a $300 coin, is much rarer and in greater demand than coin "Y", also a $300 coin. Soon, coin "X" becomes a $500 coin, or a $1,000 coin. Through the research, experience, and professional expertise of the staff of New England Rare Coin Galleries, this investment letter will help you find coin "X" and avoid coin "Y".

Our First Mini-Mailer!

Dear Friend:

Surprised to be receiving so much material from New England? As we told you in our June mailer, the Summer of '78 is going to be a special time for numismatics, and New England is getting off to a roaring start.

The coins listed in "Mini-Mailer #1" are all new purchases added to our inventory since publication of our recent monthly mailer. They're all choice specimens, purchased from dealers, collectors and at shows throughout the country over the past few weeks. The amount of quality material being bought and sold is amazing -- expecially at the wholesale level, as dealers are working furiously to ready their inventories for the A.N.A. Convention in August. Prices are rising in response to this frantic activity, so right now is a very good time to buy.

And we're giving you, our valued customers, the first opportunity to purchase these items -- none of these coins will be advertised in COIN WORLD until well into July.

Don't delay on this special offer! Call in your order today, and remember to ask about our Deferred Payment Plan (available on all orders over $200.)

Market Update

It is now "old news" that the market is in full ascent. Prices have been strong for over 8 months and they are becoming stronger with each unfolding month. Price behavior and activity is startlingly reminiscent of the mid-1979 market. However, the present market is significantly different from that of 1979 and 1980. Most market observers, in their zeal, have attempted to liken the current market to the past boom market. There is a radical difference in structure between the two markets, one which we shall now discuss and one which leads us to believe that the current heated market is much stronger in structure than the previous boom market.

Most market observers have concentrated too much on the rising prices of recent months. Prices, however, are the epiphenomena of any market behavior. What is most important about the general health of any market is the motivation of the demand segment. The demand segment of the previous boom market (reaching a peak in 1979-80) constituted dealers (many of whom were entering the serious rare coin market only because of the windfall profits made in the bullion markets), investors and a modicum of collectors. The investor portion of this demand was largely motivated by the "good press" given to tangibles and the fear of hyper-inflation and were *responding* to inflation after the fact. They felt compelled to acquire tangibles (rare coins being the most prominent) and proceeded to acquire rare coins recklessly and without proper guidance or knowledge. Collectors, on the other hand, were not buying during the boom years, firmly believing that rare coins were unnaturally expensive. Consequently, the demand segment of the past market cycle boom period was riddled by irrational elements and the resultant high prices were doomed to burst.

Enter the demand segment of the current heated market. Dealers are purchasing rare coins in large numbers again but they are "old-guard" dealers (such as New England) who are buying from a position of financial strength *not* from a recent windfall profit garnered in the bullion markets. The investor element is buying again also but it is now motivated by an *expectation* of inflation. This investor element comprises the more sophisticated corpus of investors who have participated in past coin cycles and who are knowledgeable about numismatics (or at least sufficiently knowledgeable to participate intelligently in the market). Thirdly, collectors are acquiring again, bolstered by the firm conviction that rare coin prices are now but fractions of what they will be in a few years. They are also fully cognizant of the "plateau effect" whereby price levels emerge from each market higher than the past one. Hence, it seems clear that the irrational and unstable elements of the previous boom have been purged from this market *although* prices and activity are escalating at a pace equal to the halcyon (if troubled) days of the 1979-80 boom. From any perspective, it becomes clear that the rare coin market is both active and healthy.

Prices are not rising at dizzying paces and rare coins still seem quite inexpensive with respect to rarity and 1979-80 highs. Thus, the current market is one which exhibits all of the classic characteristics of an *investment acquisition market.* The downward correction has ended, activity levels are high, prices are increasing in a consistent and gradual mode and demand is intelligent and rational. The impetus for wild and perhaps unnatural price increases, namely the investing public, has not entered this market yet. This will occur when the national press gets wind of the progress of the numismatic market and the perception of inflation reaches fever pitch. At such time, a less rational but very eager investing public will begin acquiring rare coins. Although we strongly prefer that this does not come to pass, we are resigned to the belief that it will occur. Unnatural price highs at the end of coin market cycles are just as much a fact of modern economic life as structural inflation. The only response which the intelligent investor can make is to buy during classic acquisition phases and sell when prices seem to be approaching unnatural highs. Expert guidance is, of course, needed at every juncture but the wise investor would do well to view the current market in historical and rational perspective. Although we are convinced that a major market opportunity now presents itself, we are more convinced that a discerning study of the market by the investment-minded individual will reveal that opportunity more pointedly. After all, we have always believed that an individual who is self-convinced is an individual whom New England is most able to assist.

JULY, 1954 VOL. 1, No. 2

SUBSCRIPTION; **12 ISSUES FOR $2.00**

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.

TERMS OF SALE

1. Postage extra on orders under $5.00. Please order by number.
2. Remittance must accompany order, unless purchasers have established credit with us. CASH ORDERS receive preference.
3. REMITTANCES FOR UNFILLED ORDERS PROMPTLY REFUNDED.
4. All material is UNCONDITIONALLY GUARANTEED to be as represented.
5. At time of mailing, all items are in stock. All offers are subject to prior sale; prices are subject to change without notice.

From the Editor's desk—

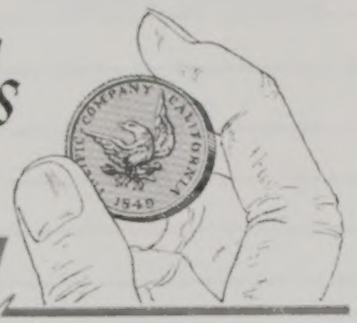

We have changed the format of "Numisma" somewhat, and hope that the present layout will be permanent. When ordering, we would like to suggest a second choice, as many items seem to sell out very quickly. Since subscribers received this issue by first class mail, well in advance of the sample copy recipients, we strongly recommend that non-subscribers enclose an extra $2.00 (with their order) for a year's subscription.

One of our customers has been advertising widely for Lottery tickets dated prior to 1900. He is trying to create some sort of display, and wants every single ticket (duplicates and all), particularly the early ones, 1750-1850. Any one who has even one ticket lying around, would do well to send it to us for a prompt offer on behalf of our client. A great many items of this sort are worth two or three dollars each to us, some less, and a very few a great deal more.

While looking for Lottery tickets, it might also be wise to search out the rarer types of 1861 C.S.A. Notes. We can often pay at least double the prices listed in the 1940 Standard Paper Money Catalog, and in some instances, considerably more. Do you have the $5. July 25, '61 Liberty, Shield and Eagle, or the $10. Sept. 2, '61 with almost the same design, in Fine or better? If you don't care to sell, we can always trade.

Owners of rare Colonials, rare Mexican items, Isle of Man rarities, expensive medals and or decorations, would do well to contact us. We do not (and have not) advertised for anything to order to "make" an artificial market. We do have terrific customers for numerous oddments, and do pay good prices, or even exchange on a cash basis.

From the Editor's Desk...

We had this issue of *Numisma* ready before Christmas, but ou Fifty-Second public and mail sale, held on Saturday, December 13th, plus a few well placed ads of Commemorative half dollars, completely engulfed us, and brought things almost to a standstill. Then, on December 19th, Charlie Wormser took the family to England for the holidays. This left your editor with continuing orders for Commemoratives, plus the usual mail, over the counter business and (worst of all) telephone calls. Next, my daughter took ill on Christmas day, and we had to rush her to a hospital. Not then knowing quite where we were at, we were happy that plans for attendance at Jacksonville had been cancelled. Also, CMW was not to return from Europe until January 8th, and we would have missed connections. However, everything turned out all right. Susie Ford is now *too* healthy; CMW returned from a happy stay abroad, and managed to bring back some very nice coins; all of the orders, and most of the mail have been taken care of.

When it says here that an issue of *Numisma* is "ready," it means that we have the text done. However, there is more to it than that. First, the questions and answers for *The Question Forum* have to be assembled, after that we have to poke through the envelope of interesting letters that we have received for *The Numismatic Irritant*. Finally, we have to get after "Barney Brasher" (soon to be BRASHEST), for his copy. This last should be easy, as BB is a very prolific fellow, but some of the stuff he puts together is even a little too rough for us, and we thrive on controversy. This time, we had a little trouble with the letters. A large number of them (almost too many), were just plain compliments or congratulations on the new *Numisma* format. This sort of thing makes the most wonderful reading for us here in the office, but we have a hunch our readers can stand just so much self applause.

I would have liked to have made Jacksonville, if for no other reason than to see a "silent (blackboard-type) auction." From what we understand, somebody again blew the whistle on FUN (Florida United Numismatists). This time, the city fathers were gently reminded that there was a city ordinance requiring a $2,000 fee for a sale by an out-of-towner. It probably didn't help that Don Rhodes was from California (where the Oranges are bigger!).

PARAMOUNT *International Coin Corporation*

Paramount Special Price List #1

SPECIAL JUNE 1966 PRICE LIST. A catalogue of rare coins offered for sale by Paramount International Coin Corporation; 5055 North Main Street; Dayton, Ohio 45415. Telephone 513 278-9611

Welcome to our latest price list - the first catalogue to be issued from our new Dayton office location.

As you have undoubtedly read in the numismatic publications the various Paramount divisions (Empire Coin Company, formerly of Johnson City, N.Y., Windsor Research Publications, formerly of the same city and World Numismatiques, formerly of Englewood, Ohio) are now consolidated under one roof.

Our new offices are located in Dayton's beautiful Buckingham Square Office Park at 5055 North Main Street. The next time you visit the Dayton area stop in for a visit. We will be pleased to see you. Our regular office hours are Monday through Friday 9 a.m. to 5 p.m.

Another item to mark on your travel itinerary: The American Numismatic Association convention which will be held at Chicago's Pick-Congress Hotel, August 16th to 20th. We'll be on hand with a beautiful selection of United States, English and other coins for sale.

This Special Price List primarily features a collection of English coins we recently acquired. It is remarkable for the rarities it contains, especially in the coinage of Queen Victoria. The listing offers a number of "Proof only" issues and other elusive pieces we haven't seen elsewhere on the market for a long, long time.

If you collect coins by types note our Special Album Offer. This offer has been very popular in the past...and has resulted in several hundred collectors obtaining quality Whitman albums (the Bookshelf type) with our compliments.

Paramount made front page news recently when it announced the availability of 1966 Panama Proof Sets. The government of Panama has selected Paramount as its worldwide distributor. Each Proof Set will contain six coins, the Balboa (crown), 50, 25, 10, 5 and 1 centavo pieces. It is interesting to note that these Panamanian issues are of the same fabric as current United States coins: the 50¢ is 3-layered and made of 40% silver, the Panamanian 25¢ and 10¢ pieces are clad copper similar to the U.S. dime and quarter, and the 5¢ and 1¢ are of nickel composition and bronze respectively.

The new Panama Proof Sets of 1966 will be different from many world Proof sets now being offered. The Panama Proof Sets are being distributed with the COLLECTOR in mind. Only a limited number of sets will be struck - a number equal to the total orders received by July 31, 1966 (or fewer sets if the mint production capacity is exceeded by that time). No additional sets will be restruck or struck for speculative purposes. A limit of 25 sets per order has been placed on ALL orders. There are no special "deals" or quantity discounts.

What does all of this mean to you? It means that when you pay your $15.00 per set issue price you will not find out later that someone else bought them for less. It means that when the deadline of July 31st is reached absolutely no more orders will be accepted. Anyone wanting sets after that date will have to obtain them from one of the original purchasers. By limiting the quantity that can be ordered to 25 sets per person the situation of large blocks overhanging the market will be eliminated.

It is planned to issue Panama Proof Sets on a continuous year-after-year basis. Here is your opportunity to start your collection at the beginning...much like starting your collection of U.S. Proof Sets by first ordering from the Mint in 1936.

Check this Special Price List carefully. We hope that there are some items of special interest to you. When you order do so with the assurance that your complete satisfaction is guaranteed. Happy numismatic hunting!

PARAMOUNT COLLECTOR

MAY 1976

This month's Collector features several choice Silver Dollars, Gold Coins and even a little paper money. Silver Dollars are particularly popular right now with wholesale prices climbing almost every week. Remember . . . we carry the most complete selection of Mint State Dollars in the business and our prices are very competitive!

Paramount Is Your U.S. Proof Set Headquarters!

The finest quality! Our buyers are very picky about proof sets! Coins which are badly discolored, hairlined or otherwise undesirable are passed by. If a proof set is not good enough for one of our buyer's personal collections, it is not good enough for one of our customers! But in order to obtain the finest sets available, we naturally must pay a little more. Even so, our customers have repeatedly told us they prefer to pay a little extra for quality.

Note: Prices are good for 30 days or until sold out. Please call or write for prices and availability of earlier (1936-1942) proof sets.

Paramount Uncovers Huge Gold Coin Hoard in Caribbean Island Paradise

A hoard of rare Spanish doubloons and other gold coins is examined by John S. Queen, vice president, left, and Ron Howard, right, Manager of the rare coin division.

Paramount International Coin Corporation recently purchased a large hoard of U.S. and foreign gold coins from a private individual on the small Caribbean Island of Curacao, located off the northern coast of Venezuela. Carson City double eagles, New Orleans eagles, rare date San Francisco gold and Spanish eight escudos accounted for the major part of the purchase although hundreds of other coins were also included.

"This Curacao gold purchase was the largest single coin purchase in the company's history," according to John S. Queen, Paramount Vice-President, who negotiated the purchase together with Ron Howard, Manager of the Rare Coin Division.

Howard said, "The condition of the coins is better than usually seen in such large accumulations. Most of the coins were extremely fine to about uncirculated. We couldn't believe our eyes when we saw it!"

When asked if any problems had arisen during the purchase, Queen said, "Not really. The biggest problem occurred after we purchased the coins and attempted to check them through air freight for shipment back to Ohio. It was apparently 'siesta time' so we had to wait an hour or so until the clerks literally woke up to process our packages."

Howard stated, "With this large purchase, we will be able to offer a much wider selection of gold coins to our customers. We have really filled the gaps in our inventory, especially in the Carson City and New Orleans issues. With such a large assortment of dates

The Paramount Journal Bows; Suggestions Welcomed

The editors hope **The Paramount Journal** will become an increasingly popular meeting ground for all who share an interest in numismatics.

There is, we realize, a varied audience to be served by such a publication. We expect to present ideas for collectors who have found a special interest in the world proof set program, for which Paramount now has exclusive distribution rights for ten countries, with more expected to join this prestigious program in the near future.

And, of course, much of our materials will benefit the rare coin buff as well. Regardless of which facet of numismatics you favor, and whether you are a veteran collector or just now attracted to the field, **The Paramount Journal** promises much that will capture your interest. Above all, we intend to satisfy your wishes insofar as what you feel can be of greatest benefit in future issues of **The Paramount Journal**. We invite you to make those wishes known so that we can plan accordingly. This is to be your publication in all respects, one in which you will participate by your comments and suggestions. We look forward to hearing from you concerning the first edition.

PARAMOUNT MINI-LIST

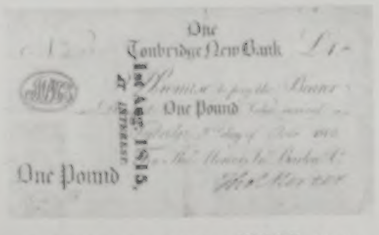

The Tonga archipelago known as the 'Friendly Islands' became independent on 4th June 1970. Situated in the sunny Southern Pacific, the proximity of the islands to other British protectorates has made this country's currencies highly popular with Commonwealth collectors. The complete set of four notes comprising 4/- 10/- £1 and £5 were issued in 1953, 1962 and 1966 respectively. We are pleased to offer the complete set of the last date of these in perfect mint condition

Government Of Tonga - 4/- 10/- £1 and £5 (set) 3.11.1966 UNC **£35.00**, ($75.00)

8. British Provincial Issue

Several hundred private banks in England issued their own paper currencies during the course of the last century. These are widely sought after by participants in UK collections.

The Tunbridge New Bank was founded in 1813 by Messrs. Mercer and Barrow but remained in existence for only one short year having closed in 1814. Like other notes of the British Provincial Banks the notes of this Bank are rarely encountered in better condition.

Tonbridge New Bank - £1 1814 VF **£15.00**, ($32.00)

9. Ottoman Empire – the Final Effort

As the Ottoman Empire reached the end of its long and glorious over 600 years as part of Europe, final efforts were made to raise money during the period leading up to the First World War. With funds and men from its empire in the Ottoman Public were drawn deep into the Central Powers' early conflict. Several different issues during 1914 to 1918 (1334) were

Fiume a famous notes as one of the more Adriatic ports better known as Rijeka in Yugoslavia. It was an independent state for a brief period of time in 1920 and has never had its own banking issues. The only currency used were the overprinted Austro-Hungarian notes. The note we offer is regarded as one of the more interesting headed "Consiglio di Credito Consigno Nazionale Citta di Fiume" on the 1912 issue. This note is catalogued in Pick under reference no. 40 at $200.00 in VF condition and we are pleased to be able to offer it in better condition and below the price.

11. Early Cape of Good Hope Issue

The Cape of Good Hope in South Africa is closely associated to the period when war broke out between Britain and the Netherlands at the end of the 18th century. The command that the British Navy had over the sea made it almost impossible for the Dutch to make their way through the Cape of Good Hope. The earliest notes of the area were hand written and the practice continued until 1803.

The Montagu Bank was one of the active financial enterprises in the area and these un-issued notes are highly popular with Commonwealth collectors because of their historic association.

South Africa Montagu Bank, Cape of Good Hope – £5 18 – EF - **£22.00**, ($48.00)

Announcement

This publication will be sent you every once in awhile with our compliments. It is our purpose to make it more than a "price list". We are going to tell the stories and incidents connected with the many interesting coins you may have, or wish to have, in your collection.

Many inexpensive coins, of great historical importance are neglected by collectors in America. We believe the reason for this neglect is chiefly because the associated stories seldom appear in print. They are hidden away in books that are expensive if not altogether impossible to obtain. Or in books written in a foreign language that is not easily translated by the average collector. It is not our intention to publicize coins that are beyond the reach of most collectors. In our opinion, a tetradrachm of Alexander the Great or an antoninianus of Diocletianus are coins worthy of a place in any collection. These, and many other inexpensive coins, of similar historical importance will be given recognition in following issues.

If Coin Topics helps you in forming a really interesting cabinet of coins we will consider our efforts worthwhile.

We would appreciate knowing your opinion of our form of advertising. An occasional comment or order will keep you on our regular mailing list.

Mithradates The Great B.C. 120-63

Few rulers have been more worthy of the epithet "great" than was Mithradates VI. At the age of eleven he succeeded his father as King of

Pontus. Alarmed at the attempts made upon his life by his mother, he fled to the mountains and was for many years a hunter. In III B.C. he returned to Sinope, established himself on the throne and turned to conquest. He rapidly overran Galatia, Phrygia and Asia, defeated the Roman armies, and ordered a general massacre of the Romans in Asia.

Like most remarkable rulers he struck coins of much merit. The one illustrated above was struck in the year 75 B.C. It is supposed to have been copied from a silver statue mentioned by Pliny. The hair, blown back by the wind, indicates that the original may have been either an equestrian or that of a charioteer. It is the best portrait coin of that period and one of the most interesting of all times. We have in stock, several specimens in quite fine condition.

Spanish American Gold Coins

By WAYTE RAYMOND

The articles prepared by Mr. Raymond and published in the JOURNAL are now obtainable in book form. Many new illustrations have been added, showing, as far as is known, every type of Spanish American gold coins. The coinage tables from each mint are arranged in a manner that will permit easy and ready reference to the student. Mr. Howland Wood of the American Numismatic Society, has written in a very interesting manner, a general introduction to the work, and introductory chapters to each of the eight mints. Mr. Wood's histories of the mints are of special interest, as they tell not only the essential details but give a short compact historical sketch of each country and ruler. He has also included in the FOREWORD a table listing all the American mints under Spain, giving the different mint marks and the dates during which the mints were in operation.

Mr. Raymond has been interested in this series for nearly twenty years, and during the last five has spent much time and effort accumulating information for this book.

In size it is 6 by 9 inches. Bound in the finest library cloth and beautifully illustrated in half-tones.

Important notice

After many years on 46th Street in the heart of midtown New York, we have suddenly realized that our neighbors are changing over to industrial and manufacturing industries.

In the many years gone by, we have endeavored to keep pace with the changing of our great city, known and respected as the "COIN CAPITOL OF THE WORLD." It is now our pleasure to announce the removal of our store and offices to 57th Street, the new hub of retail business in midtown New York, and the centre of the fine art and auction galleries. We take our place amongst such names as Tiffany, Steinway Pianos, Carnegie Hall, to mention just a few of our neighbors.

Our New Home and Address now is

123 WEST 57th STREET

New York, 19, N. Y.

Phone: JUdson 2-2580

Remember: Only the address will change. Not our service nor our intention to satisfy you, the collector.

APPRAISING

While our Coin Brokerage Department was founded almost two years ago, this is the first price list we have issued. So now the collectors who cannot visit our office, may share with those in the New York Area, this opportunity to obtain some of these remarkable values, as may be seen in this list.

We have selected what we think are the outstanding values of the many consignments we have received.

We suggest that you send your order at once. PREFERENCE GIVEN TO THOSE WHO ENCLOSE REMITTANCE.

You also can SELL your collection, duplicates, or individual coins in this MODERN manner, for this department was created for the collector who is reluctant to sell at auction or to submit his coins for an offer. All you have to do is to send them in with the prices you want and we will endeavor to sell them at the prices you suggest. There is no guess work!! You know immediately how much you will receive for your coins. Our nominal brokerage fee is your only cost. No extra charge for insurance against fire or theft.

BROKERAGE FEES

$ 25.00 Coins	15%
50.00 Coins	12½%
100.00 Coins and up	10%

Unless in conjunction with a collection, individual coins valued at less than $25.00 are respectfully declined.

Hundreds of collectors have found this to be a quick and very successful service. Why not try a small consignment and be surprised at our quick results. Prompt Settlements Guaranteed.

THE LATEST NEWS ON MONEY & MEDALS

NOVEMBER, 1970

PUBLISHED BY SUPERIOR STAMP & COIN CO., INC., 517 West 7th. Street, Los Angeles, California 90014 (627-2621)

Record Prices Set at Auction!

The coin auction held by Superior Stamp & Coin Co., Inc. on Sept. 24-26 indicated an intense interest in varied phases of numismatics. The first session featured rare and seldom offered ancient Greek, Roman, and Judaean coins; ancient Jewish artifacts from the Moshe Dayan Collection, plus many rare coins of the U.S.A. in all metals.

The highlight of the U.S. Section was lot #574, an 1829 small date $5.00 gold coin. The bidding started at $17,500.00 and escalated to $23,500.00, which set a new record.

The second and third sessions featured numismatics of Mexico from barter media of the Aztec Period to the modern key coins of the 20th Century. The coins covered the period from the founding of the first mint in the Americas at Mexico City in 1536 thru 300 years of Spanish rule, two empires, the War of Independence, a republic, a civil revolution, and independent Mexico . . . a total of 434 years of Mexican coinage.

All three sessions drew tremendous response in international attendance, (averaging over 100 during each session), with record-breaking prices realized, and intense activity in the bidding which opened at 5% over the second highest mail bid. Lots were frequently knocked down at ten times the opening bid. Bargain seekers and mail bidders on limited budgets were not disappointed however, as many select items for U.S. collectors went for less than Redbook prices.

A few of the many highlights of the sale were:

Lot # 14 - Pertinax Gold Aureus	$3600.00
Lot #587 - 1907 Roman Num. $20.00 Gold	975.00
Lot #773 - 8 R. 1812 Prv. D. Oaxaca	2300.00
Lot #874 - 1 R. 1824 R.L. Do. VF.	875.00

Our next sale scheduled for early 1971 will contain more fantastic coins and medals. We suggest that interested parties should try to attend this sale. Many of the coins will be offered for the first time in a public sale. Collectors are finally realizing the importance of quality in Mexican coins, which will be featured in our next auction along with a large selection of U.S. coins from Colonials to gold. Catalogs and prices realized for our next sale can be obtained for $1.00, and should be ready for distribution early in 1971.
